## 简单搜索使用

```
in:name vue2 stars:>5000 forks:>5000
```

```
in:readme vue2 stars:>5000 forks:>5000
```

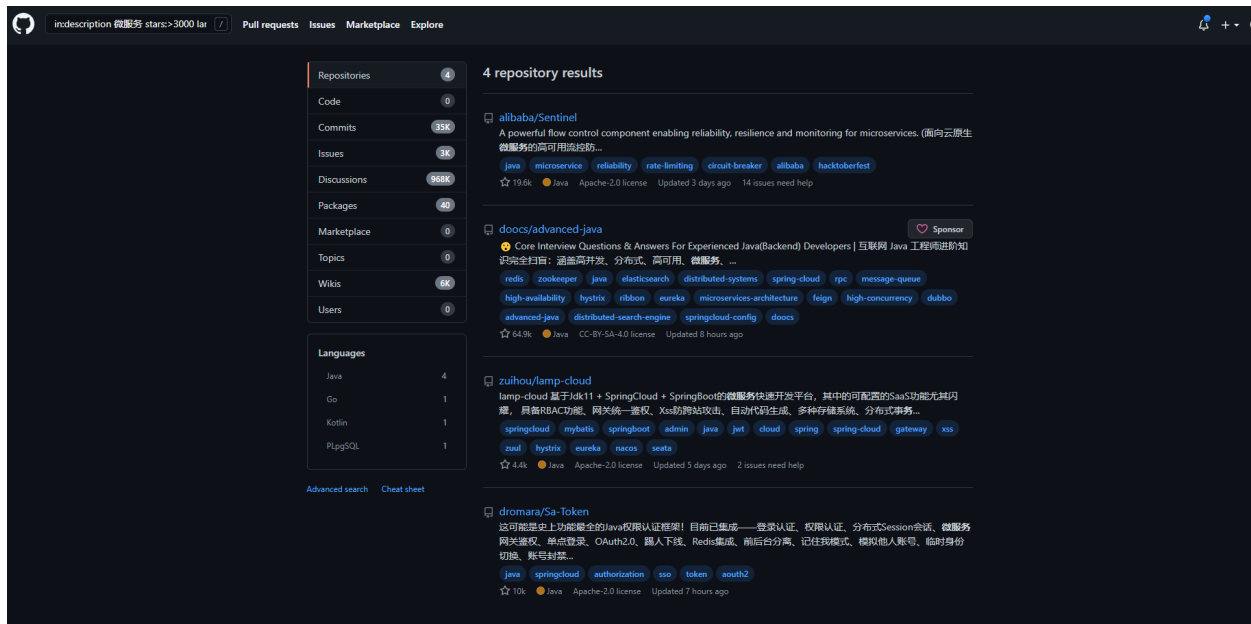

```
in:description 微服务 stars:>5000 forks:>5000
```

This screenshot shows the GitHub search interface for the query 'in:description 微服务 stars:>5000'. The left sidebar displays repository statistics: Repositories (4), Code (0), Commits (35K), Issues (36K), Discussions (968K), Packages (40), Marketplace (0), Topics (0), Wikis (6K), and Users (0). Below this, the 'Languages' section lists Java (3) and Python (1). The main area shows '4 repository results'. The first result is 'alibaba/Sentinel', described as a powerful flow control component. The second is 'shuzheng/zheng', a Spring+SpringMVC+Mybatis distributed development framework. The third is 'doocs/advanced-java', a core interview questions and answers book. The fourth is 'fighting4love/funNLP', a toolkit for NLP tasks. Each result includes tags for relevant technologies and a 'Sponsor' button.

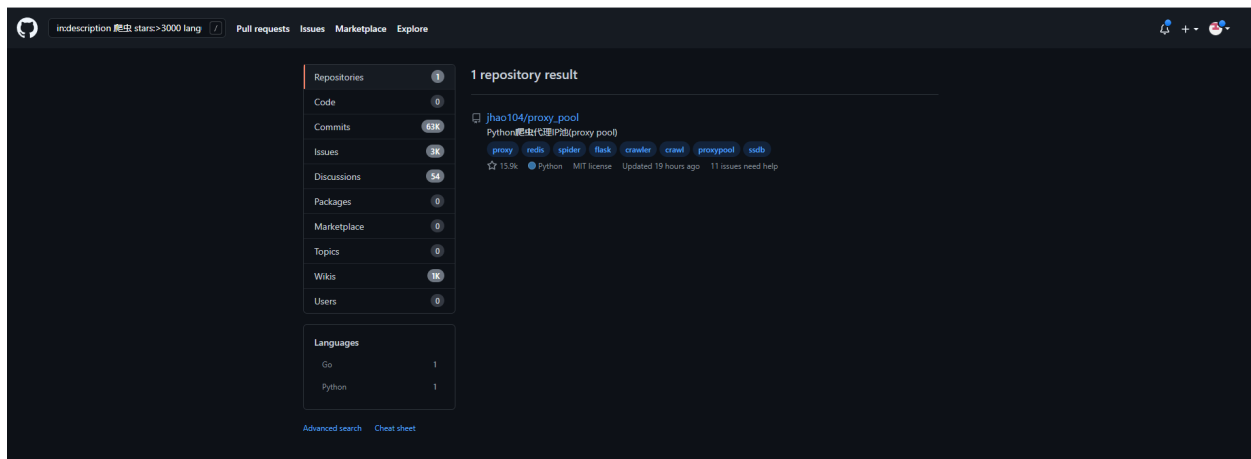

in:description 微服务 stars:>3000 language:java

This screenshot shows the GitHub search interface for the query 'in:description 微服务 stars:>3000 language:java'. The left sidebar displays repository statistics: Repositories (13), Code (0), Commits (35K), Issues (36K), Discussions (968K), Packages (40), Marketplace (0), Topics (0), Wikis (6K), and Users (0). Below this, the 'Languages' section lists Java (13), JavaScript (3), Go (2), Python (2), Assembly (1), Kotlin (1), PL/SQL (1), and TypeScript (1). The main area shows '13 repository results'. The first result is '2227324689/gpmall', a SpringBoot+Dubbo e-commerce platform. The second is 'alibaba/Sentinel'. The third is 'zhoutao0/SpringCloud', a SpringCloud 2.1.x development framework. The fourth is 'paascloud/paascloud-master', a Spring Cloud + Vue + OAuth2.0 e-commerce project. Each result includes tags for relevant technologies and a 'Sponsor' button.
